

INFORMATION TECHNOLOGY STUDENT

Motivated IT student with strong foundations in data analysis, machine learning, and Python-based development. Hands-on experience in building AI-driven systems, anomaly detection models, and data visualization dashboards using Power BI and Tableau. Familiar with deep learning, computer vision, and security-focused applications, with a strong interest in cybersecurity and intelligent threat detection systems.

TECHNICAL SKILLS

Programming	: C++, Python, Java
Data Tools	: Pandas, NumPy, Matplotlib
Databases	: MySQL, MongoDB
Web Technologies	: HTML, CSS, JavaScript
Data Visualization & Analytics	: Power BI, Tableau, Data Cleaning & Transformation

PROJECTS

Intrusion Detection System <i>Python, Deep Learning, Computer Vision, CNN</i> - Designed an AI-based intrusion detection system using deep learning techniques. - Detected unauthorized access, abnormal human activity, and anomalous behavior from visual data. - Implemented convolutional neural networks (CNNs) for image-based intrusion classification. - Performed data preprocessing, feature extraction, and model training to enhance detection accuracy. - Improved security monitoring and threat detection aligned with real-world cybersecurity scenarios.
ModaMuse – Virtual Wardrobe <i>Python, Embeddings, Image Processing</i> - Implemented similarity search using vector embeddings for outfit matching. - Built recommendation ranking models for personalized fashion suggestions. - Applied image processing techniques to enhance visual feature extraction.
Learning Stock Market Through Gamification <i>Python</i> - Developed a gamified stock market simulation using virtual capital. - Tracked and analyzed user trading behavior and performance metrics. - Enhanced financial learning through interactive and data-driven gameplay.

EDUCATION

MIT ADT University <i>B.Tech in Information Technology CGPA: 6.51</i>	Pune, India 2022 – Present
Shree Haribhau Balavantrao Girme Jr. College <i>12th Grade 75%</i>	Pune, India 2020 – 2022
Podar International School <i>10th Grade 71.9%</i>	Pune, India 2019 – 2020

CERTIFICATIONS

- Coursera – Fundamentals of Visualization with Tableau - Coursera – Introduction to Microsoft Azure Cloud Services
